IB LEARNER PROFILE "INQUIRER"

Asalam o Alaikum

Through this newsletter as a medium we would like to talk and explain about the attribute of the IB learner profile "Inquirer".

What does inquiry look like in a PYP Classroom and at home?

An inquirer shows a natural curiosity and seeks out answers to questions. According to the Primary years Program, inquirers nurture their curiosity, developing skills for inquiry and research. Inquirers learn independently and with others showing enthusiasm and sustaining their love of learning throughout life. (IBO, 2013)

How can parents help to promote inquiry at home?

- Encourage your child to read newspaper articles and borrow books from the library which have their focus on the unit of inquiry.
- Show great enthusiasm when you find your child inquiring into a new concept.
- Model being an Inquirer. Seek the answers by researching with your child rather than simply telling what you already know.
- Use internet together with your child to explore new ideas and information.
- Explore practical use of math concepts in real life situations: for example, use of percentage in price tags, use of decimals in money and use of weight in different products available in the market.

PICNIC IN EARLY YERS!

Picnics help children explore new foods, develop social skills and build relationships.

Creating a shared picnic fits with our Early Childhood Curriculum. Children are empowered to try new things and step out of their comfort zone. Picnics also open communication about the role food plays within a community and the importance of sharing a meal.

What a colourful memory Early Years' learners have recorded this month!

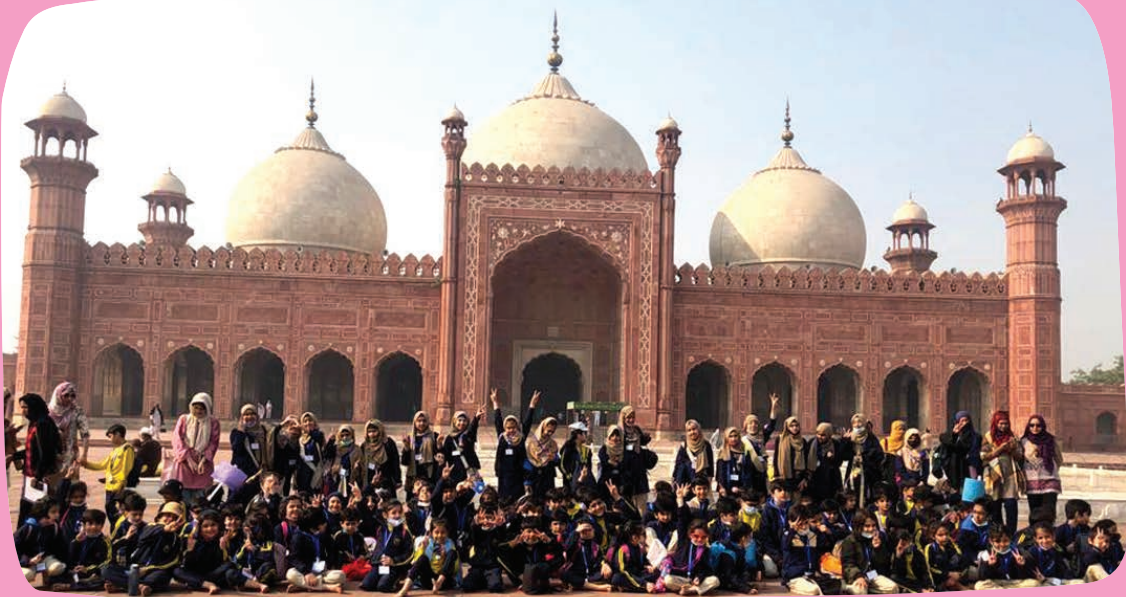

HOW WE EXPRESS OURSELVES!

This exhibition had a variety of displays right from paintings on canvas, pottery, Portraits, Origami, Still life, performances and so on. All the PYP learners visited the exhibition throughout the day with their teachers and thoroughly enjoyed the visual treat. Our learners felt proud and were delighted to see their works displayed.

A VISIT TO EXPLORE OLD LAHORE!

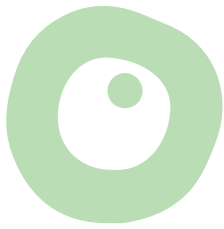

PYP has started a new theme; Where We Are in Place and Time, an inquiry into orientation in place and time; personal histories; homes and journeys; the discoveries, explorations and migrations of humankind; the relationships between and the interconnectedness of individuals and civilizations, from local and global perspectives.

To provoke the interest of the learners into history, we visited Old Lahore to explore the architecture of the old city and then compared it with the modern structures.

BOOKS & BUDDIES

Books & Buddies is a Reading Program developed to improve the literacy skills of children by partnering them with volunteer mentors acting as reading companions. Working together, the volunteer and learner focus on improving the child's reading proficiency, comprehension, and oral reading skills.

It was a wonderful learning experience for all primary years learners.

WORLD'S UNIQUE TALENT'S DAY

Talent show was a great way to showcase the talents of the learners, build their confidence, and bring the community together. It was a fun-filled event that appealed to all age groups in a school. Early years, primary years, hifz and IGCSE learners showcased their wonderful talents to the school community. This was a great opportunity to encourage all age groups to come up on the stage and celebrate their wonderful self.

WORLD'S UNIQUE TALENT'S DAY

A SPACE FOR IGCSE STUDENTS

Amusement at school trip- No Doubt!

T“One of the greatest things about travel is that you

get to know about many kind hearted and accommodating people near you.”

We, students of Lecole Mondiale got an opportunity to express ourselves, spend time with our staff and our school mates. We had a marvelous plan of visiting Kallar kahar and Katas Temples, it was a time-consuming journey, but with friends, It was a short period of time.

“Good Company in a journey makes the way seem shorter.” It was the most beautiful trip I eternally had, and would love to go on more.

I went to sleep early to wake up timely to be full of energy, get-up and get-go on for journey. We rode the bus in front of the school in the early morning it was around 6: 15 a.m. and we left our parents and went with our spiritual parents. On the go with the name of Allah (SWT). We had our snacks with us, we all shared the eatables and it was fun.

We reached our destinations and were enthused a lot. Without our caring staff, it could be so tough to manage and we had a lot of excitement together. We made memories and captured a million pictures. We had a hiking experience together which was quite adventurous and thrilling. All of us helped out each other till we reached down safe and sound.

It was a lovely day we enjoyed it so much, saw the beauty of our country, learned a lot about each other and I measured this journey with friends rather than with miles.

As a final point, we reached our city late at night. Our families were waiting for us. We express gratitude towards our supervisors who took care of us.

I felt extremely elated, on this school trip where we represented our school in the best way , we expressed our grace and dignity- it was a beautiful moment when our school offered prayers during journey, our school made us learn a thousand things special and unique. Being a student of Lecole Mondiale I am so grateful.

A SPACE FOR IGCSE STUDENTS

LM Trip- 2021

Wish to go back on day 13 November
All of it that's passed , we still remember

Travelled 129 miles
With every moment full of smiles

Memories been made
within the mountain shades

seeing temple's ancient ruins
Gave our hearts the historical illusions

On top of the cliff where i stood
Tried Looking as far as i could

Saw mountains piercing the sky
As adventure filled all the students eyes

Best part was the hike
Since that's what we all liked

spending the entire day with friends
Hoping it never ends

Sadly with a heavy heart we had to go back
glimpse of views giving us flashbacks
